About

Unnique Beauty Corporation is a company dedicated especially to enhance the beauty in every woman, which is the main motive for our professional hair care line. Unnique is the result of several years of experience in the research, development and creation of beauty products.

Combining ingredients and technology from Europe, United States and South America, we achieve unique quality and unparalleled results on the look and care of your hair. We work hard to develop products that give you the same results of the best products available, however being more friendly for the hairdresser and giving a woman's hair an amazing and natural look. We know every woman's hair type is different, and the hair professionals want different options for different needs, and this is why Unnique offers three different types of keratin hair treatments.

Unnique KBS is our original product, made for most types of hair, giving it beautiful and natural-looking results.

Unnique KBS Advance was created to work on thicker and rebellious type of hair, reducing frizz and leaving it more manageable.

*And Unnique Amino is the most revolutionary product available, because it is 100%-free of formaldehyde **and it works**, allowing it to be used on pregnant and nursing women, and also young girls.*

Creating products that will give a woman the hair she always dreamed of is our mission, our commitment, our way of doing things. There is no better feeling than falling in love with your hair, with your beauty, with yourself. We are sure you will fall in love. Fall in love with your hair. Fall in love with Unnique...

UNNIQUE KBS TREATMENT

Unnique presents the first Keratin Nurturing treatment with wheat germ oil.

Unnique KBS - Keratin Beauty System presents the only product that blends the virtues of Wheat Germ Oil with keratin and collagen, creating an efficient, yet gentle, keratin treatment.

Wheat germ oil is an unrefined oil that is obtained from the germ of the wheat kernel. It is the richest source of Vitamin E than any other vegetable oil. It also has a high content of Vitamin A and Vitamin D. It is rich in protein and lecithin. Wheat germ oil can be used in combination with several other substances, then massaged into the scalp as a natural remedy for hair growth.

How it Works

The combination of Wheat Germ Oil with Hydrolyzed Keratin and Panthenol is what makes Unnique KBS Treatment the most advanced Keratin Treatment available. Compatible with all kinds of chemical treatments such highlights, relaxers, permanent straightening, coloring or decoloring, Unnique KBS Treatment can be applied on all types of hair. Washable in 24 hours, it lasts for up to 4 months.

Unnique After Care Kit is an amazing blend of salt-free sulfate-free Shampoo, Conditioner and Leave-in that makes your Keratin Treatment last longer and keep your hair with the shiny and soft look that that only Unnique can provide.

ADVANCE

Unnique Advance is the most effective formula to treat and tame unruly, rebel hair; getting a high result in the reduction of the volume, giving softness and shine to the hair. By using the amazing properties of Brazilian Nut, Unnique Advance smoothes out the thickest hair and render it manageable, radiant and frizz-free.

The Brazilian nut contains more than 66.2% of fat that easily penetrates in the hair strands, composed at a rate of up to 25% saturated fatty acids. This is one of the richest vegetable fats in fatty acids which its formula helps soften coarse hair leaving it more manageable, radiant and free of frizz.

Brazilian nuts are known for their high levels of antioxidants, vitamins and nutrients. The use of essential oils of the fruit in this product will prevents hair loss and assists the growth and thickening. Unnique Advanced combines all these advantages with the keratin, straightening the hair from the inside out to create a desired outcome, leaving it soft and natural.

Unnique Advance can be applied on previously straightened hair, colored or discolored hair, and hair that has been treated with any other chemicals. The healthier the condition of the hair, the better the final result will be.

Recommended for:

Virgin Hair, Coarse Resistant, Hard to Tame

Active Ingredients:

Brazilian Nut, Keratin, Collagen

Application:

3-step includes Mask

Wait before Washing:

Wash immediately

If using After Care Kit, will last for:

Up to 4 months

Formaldehyde-Free

*Unnique introduces **Amino**, its latest and most innovative treatment yet, completely **FREE** of any type of harmful chemicals; this special formula is created so it can be applied to Children over 12 and pregnant and nursing women.*

Formulated with nano particles of an exclusive blend of amino-acids, Amino Keratin provides treatment and volume reduction, allowing for a temporary change in the hair structure. This product has a low PH and does not cause a permanent change to the hair structure, therefore not causing the damage of chemical treatments.

The volume reduction is progressive and cumulative, making the hair easier to work on, besides providing shine and natural look to the strands. It also great for hair, previously treated with a relaxer, providing an amazing result and a very natural look.

This product is free of Formaldehyde; it is safe to be applied on any type of hair. It is a professional product, and has to be applied by a certified professional in order to get a perfect result.

 ADVANTAGES
100% SAFE AND NON TOXIC
NON IRRITATING
DOES NOT CAUSE ALLERGIES
REDUCES FRIZZ
STRAIGHTENS HAIR
ABLE TO APPLY MORE FREQUENTLY
DOES NOT MODIFY HAIR STRUCTURE AFTER SEVERAL APPLICATIONS
TREATS AND HEALS DAMAGED HAIR

KBS

AFTER CARE

Unnique KBS After Care Kit

This is the most advanced After Care Kit available in the market, to make your keratin treatment last longer and keep the shine and natural look you always dreamed of.

Unnique KBS After Care Shampoo - sodium-free, sulfate-free: *Designed to cleanse, increase manageability and hydrate the hair. Its main ingredients are Keratin, Panthenol, Amino Acid, and (Wheat) Germ Oil that provides a special shine to your hair, and keeps the natural look and softness obtained from the keratin treatment.*

Unnique KBS After Care Conditioner - *With hydrolyzed keratin, Panthenol, Sorbitol, Sodium Cocoyl, Collagen Amino and wheat germ acid, it is designed to moisturize, increase manageability and nourish the hair, replenishing the same main ingredients of the KBS Treatment.*

Unnique KBS After Care Leave-in - *with hydrolyzed keratin, Panthenol, Glycerol and Cococate. Replenishes moisture while protecting hair from harmful environmental effects. Leaves hair soft, shiny and easy to manage. This product can also be used as a styling cream.*

***KBS Unnique Treatment
Step By Step***

KBS Unnique Treatment

Step By Step

Step 1:

Deep Cleaning Shampoo

Wash your hair with a deep cleansing shampoo to remove impurities from the hair and leave for a few minutes, rinse thoroughly, do not use conditioner.

Remove moisture from the hair with the dryer on low medium heat up to 70-80%

Divide the hair into four parts.

Step2:

Keratin Beauty Treatment System

Apply the Keratin Treatment System starting at the neck working your way up and remember to leave one centimeter away from the root.

Wrap hair in a thermal cap for better absorption of product and leave for 15-20 minutes and then Dry the hair completely at an average temperature.

Step3:

Run flat iron (420-450°F) in small divisions of hair minimum 7 times on each strand to close the thread and seal the treatment. Wait 24 hours and then rinse with cold water, dry and style.

Professional Tips

When washing your hair make sure the hair cuticles are completely open.

A brush and a well-made iron are the secret of an excellent result.

Warm or hot water opens the cuticle, cold water closes them.

Always do other procedures such as Relax, tints, lights and other chemical treatments prior to the straightening treatment to ensure lasting results. You can even do the procedures on the same day.

Advise clients 80% c dry hair after washing, so that the results last longer.

Naturally curly hair: the result is a smooth hair, softer, brighter.

Extremely curly hair and frizz: the result is 50% more hair smooth, soft and hydrated.

Curly hair with volume, with shades, lights and other procedures:

Beauty Keratin Treatment System is recommended for chemically treated hair, and once you open the cuticles, you can see 80% satisfactory results in the very first application.

Precautions:

Avoid contact with eyes and skin.

Do not inhale the fumes.

In case of allergy by skin contact, rinse thoroughly for 10-15 minutes. In case of poisoning by inhalation, bring the person to fresh air and open. Apply this product only in places with good ventilation. It is mandatory mask use for the client, as also the use of masks and gloves for the professional. Extra care is recommended for people with a history of allergies to chemicals and sensitivity to odors.

Apply to a distance of 1 cm of the root.

Do not use in children or pregnant women

For professional use only.

Keep the product in a cool and ventilated.

Keep away from heat, light and moisture.

Keep away from children.

**“Straightening with temperatures over 200°F
may damage the structure of fine and
sensible hair.”**

Now you can **AVOID** this with the new **Unnique
ProTape**

ProTape is a special and simple tool that we have developed to bring you the best results when you use your flat iron; eliminating all of those unwanted “marks”, allowing the iron to smoothly run through your hair and evenly straightening it.

Unnique ProTape is a specially coated tape that is wrapped around the heated plates of your flat iron, protecting the hair from the heat and still giving beautiful straightening results.

BENEFITS:

- Works as a thermal protector by avoiding the hair’s direct contact with the hot plates of the flat iron.
-
- Eliminates all of those unwanted marks in the hair.
- Help reduce dehydration of the hair.
- Tape accommodates to any size plate and flat iron. It can be used not only by professionals, but by consumers as well.
- Helps to reduce dehydration of the hair.
- Evenly distributes heat throughout the hair for much better results.
- ProTape can be used at any temperature from 100°F up to 500°F.

Step1: Clean the flat iron with Isopropyl Alcohol.

Step 2: Wait for the flat iron to heat up for 30 seconds.

Step 3: Completely unplug the iron. It should still be hot.

Step 4: peel the plastic yellow protector and throw it away.

Step 5: accommodate the tape so that it covers each plate evenly around both sides.

Step 6: use a cloth to rub any air bubbles away.

Step 7: finish wrapping the tape around the plates.

Step 8: repeat on the other side.

Do not remove tape until you are replacing them with a brand new pair.
